

NSL OILCHEM GROUP OF COMPANIES
NSL OILCHEM SERVICES PTE LTD
HUP ENG TAT ENTERPRISES PTE LTD
NSL WATT WAH

Established since 1997, NSL OilChem Group is a leading integrated waste management company in Singapore. Located on a water-front land in Jurong, it has its own wharf and is well-equipped to receive waste oil, slop and sludge.

NSL OilChem Services (NOCS) is the first and only onshore plant that complies with MARPOL Annex I Facility standard. NOCS is also licensed by National Environmental Agency (NEA) as a toxic industrial waste collector.

With a comprehensive range of land and marine transport such as tankers and trucks, it provides its customers the convenience of an integrated waste management for a wide range of **land and marine wastes**.

NOCS is constantly on the quest for resource efficient and environmentally sustainable solutions for the wastes collected.

Waste Oil Collection

De-slopping Operation

NOCS services comprise of slop and sludge barges for collection of **oily slop & sludge** for marine customers; a full range of land transport fleet (ISO tankers, vacuum tankers, hook-lifts, lorries and cranes) for collection of all types of industrial waste (e.g. **waste oil**, used automotive, industrial & marine engine **lubricants**, contaminated **fuels**, diesel, kerosene & other **petroleum products**, industrial **solvents**, metal drums & containers, acids, alkalis, **industrial waste water** & other **trade effluents**).

NOCS also provides other wastes supporting services such as tank cleaning and cleaning of grease traps & oil interceptor.
