

Likok is now one of the largest waste paper exporters in Singapore because to us, recycling is not just a business. It is a way of life. We recycle because Mother Nature needs a helping hand in the fight against environmental damage. Today, Likok is preferred by many leading paper mills in Asia. We supply various grades of waste paper such as OCC, ONP, SWL, DLK, WBN, OMG, HWS and others. We are also an end-to-end paper recovery centre that takes care of collection, sorting, document destruction, baling, packing and export.

Help us fight environmental damage by recycling your waste paper with Likok.

Call 6266 5959 now to discover how.
