

A Specialist for Process Equipment and Analytical Systems Integration

As a leading system integrator for process equipment and analytical systems, ATE has delivered about 4,500 sets of various process analytical systems (analyzer houses, 3-sided analyzer shelters, analyzer cabinets, analyzer racks, sample conditioning systems, sample recovery systems, safety & alarm panels and etc.) in which about 800 sets of analyzer houses have been completed since 1998.

CEMS Emission Monitoring Systems

**Ambient VOC
(Hydrocarbon)
Analyzers**

Process Laser Gas Analyzers
O₂, CO, CO₂, H₂O, H₂S, HF, HCl, NH₃, CH₄

**Flammable, Toxic &
VOC Gas Detector**

**Membrane Integrity
Drinking Water
Waste Water
Industrial Water
Surface Water**

**Suspended Solids
Turbidity / DO / pH Sludge Blanket**

**Water Quality
Monitoring**

COLIFAST[®]
Rapid Automated
Bacteria Testing

Oil-In-Water Analyzers
